EDUCATION

- **BE Computer Engineering 2025(Pursuing)** - International Institute of Information Technology, Pune **CGPA - 8.07**
- **Higher Secondary Education in Science 2019 -2021** - Abhishek Jr. College, Sahunagar Pune **88.67%**
- **Primary and Secondary School 2008-2019** - Blossom Public School, Tathawade Pune **90.6%**

INTERNSHIPS

Software Development Intern - Borderless World Foundation | Dec 2023 - Present

- Optimized CRUD operations on MySQL database and developed optimized logic, resulting in a 45% reduction in average response time.
- Effectively managed databases for Home and Child modules, ensuring secure and scalable data management, leading to 47% faster data retrieval and storing.
- Engineered a reliable API for log storage and Implemented effective storage of logs in case of emergency, leading to 38% effective data safeguarding and security.

Full stack Developer Intern - Debug Development Technologies | Feb 2024 - Mar 2024

- Utilized and Implemented 3+ attractive, responsive and mobile-friendly websites.
- Utilized Technologies such as HTML5, CSS3, JavaScript, NodeJs, MongoDB and frameworks like JQuery, ReactJs, ExpressJs and Bootstrap.
- Developed and tested REST APIs using tool like Postman API.

SKILLS

- **Programming languages:** JavaScript, TypeScript, C++, C, Java, PHP, Python.
- **Frameworks:** Node.js, Express.js, ReactJs, JQuery, Bootstrap, Nextjs13
- **Database:** MySQL, MongoDB, PostgreSQL.
- **Other Technologies:** Cloundinary, Git & GitHub, Figma, UI/UX designing, Postman API, Linux.

PROJECTS

[\[Link\]](#) Child Administration System (Additional Modules) | Present

Tech Stack : jQuery, Bootstrap, Php, WAMP, Angular JS, MySQL, AJAX.

- Frontend development using HTML5, CSS3, JavaScript, jQuery and Bootstrap for Interactive and responsive Interfaces.
- Backend implementation built using PHP, AngularJs and AJAX for computation and database operations.
- **Roles and responsibilities:** Interactive and Real-time Dashboards with filtering, sorting and searching features using Angular JS, resulting in 65% customer satisfaction and effective data access.
- Engineered a centralized file storage system, resulting in 35% faster file loading speed.

[\[Link\]](#) Improved Credit Scoring System | May 2024 - July 2024

Tech Stack: ReactJs, Bootstrap, MongoDB, Flask, Python libraries (scikit-learn, joblib) for AI and ML models.

- Frontend Development using ReactJs for a seamless interface enabling server-side rendering.
- Backend Development built using Flask to handle API integrations and Routing.
- **Roles and Responsibilities:** Streamlined API routings in both backend and client side, resulting in 30% faster operations.
- Operating and Managing MongoDB operations in backend, leading to 25% more secure data storage and retrieval

[\[Link\]](#) **E-Commerce Website** | April 2024 - May 2024

Tech Stack: Node Js, Express Js, React Js, Bootstrap, JWT Auth tokens, MongoDB, Cloudinary

- Frontend development using ReactJs for creative interactive. intuitive and responsive user Interface.
- Backend Implemented with Node.js and Express.js to handle API integrations, and MongoDB CRUD operations.
- Implemented media upload integration with Cloudinary, resulting in a 30% increase in storage efficiency.
- User and Admin Authentication: Implemented user authentication and authorization using Sessions and JWT.
- Product catalog, category Lists, Shopping Kart functionality: Created a product catalog with features like Sort, Filtering and Pagination.

CO-CURRICULAR ACTIVITIES

HumanAize Hackathon <FinTech Edition> July 2024

- Developed an AI-driven credit scoring and loan prediction system, enhancing accuracy in credit risk assessment and reducing non-performing assets (NPAs) for commercial banks.
- Implemented features for credit score monitoring, alerts, and loan offer predictions, resulting in improved lending decisions and stronger consumer financial health.

Smart India Hackathon (SIH23) September 2023

- Focused on utilizing geospatial data to generate actionable insights for the development of urban and rural areas, driving targeted and efficient planning.
- Emphasized advanced geospatial analysis techniques to inform development strategies, enhancing resource allocation and infrastructure improvements.

EXTRA CURRICULAR ACTIVITIES

Young India (Yi) Committee Core Team - Event Management

2023 - 2024

- Volunteered at multiple events, specializing in event management and logistics coordination.
- Collaborated with team members to ensure successful execution of committee initiatives.
